

April 2012

Dear Sir or Madam,

SYLEX, s.r.o. would like to inform you following changes have been made in our products portfolio:

- Outer diameter of 24-fiber round cables has been changed from 4.5mm to 3.8mm.

This change affects items listed below:

- MTP®-MTP® 24F trunk cables
- MTP®-LC(SC) fan-outs
- Pre-terminated 24F cables with Duralino fan-out®

Reason of Change:

- Smaller diameter of cable helps optimize data center airflow for efficient thermal and energy management.
- Reduction of cable bulk in installations
- Smaller bending diameter

Effective Date of Change:

This change will be implemented in running change mode. For details of the schedule of the change in certain part numbers, please contact sales department.

Sincerely,

SYLEX team
