

November 2021

Dear Sir or Madam,

Please accept this document as a formal notification that SYLEX will gradually be replacing the current design of SYLEX DIN Rail Boxes.

The new design is fully compatible with the current one, with the following improved features:

- New version of Din Rail holder
- Din Rail holder can be mounted on the side of the box
- All four cable entries are completely blinded, ensuring higher rodent protection

Below you will find a basic comparison of the current and new versions of DIN RAIL BOX.

For detailed information, please contact your primary SYLEX representative.

This change will be implemented immediately as old stock is already depleted.

Sincerely,

Your SYLEX team
